WMDH COUNTRY
102.5 FM & 1550 AM
AMERICA'S MUSIC

March 29, 1993

Mr. Geary:

It's great to hear from you! WMDH-AM is indeed the station you heard on March 22nd. It's gratifying to know that a 250 watt station that often can't be heard even to the county line can be heard at such a great distance! I have included a bumper sticker with this note just in case you collect such things. Our FM station of the same call letters is a 50,000 watt country station and it receives a lot of attention, so it's good to get some attention for the AM from time to time. Thanks again for your note..

Sincerely,

Tim George
